Position Title: Assistant Grower

Immediate Supervisor for Position: Head Grower / General Manager

Major Position Responsibilities:

1. Active participation in all production tasks under the direction of the Head Grower.
2. Continue a learning process of growing skills including safe pesticide application, individual crop requirements, etc.
3. Be available to work rotating weekend schedules, evenings, and holidays unsupervised.
4. Advise management, develop production schedules and crop rotation.
5. Advise management, develop and implement any methods to improve day-to-day operation of greenhouse.
6. Active participation in all cultural practices on crops including spraying, watering, fertilization, testing, etc.
7. Maintain (to the best of your ability) accurate crop records of plants in the production phase.
8. Alert management of any shortages of production supplies.
9. Be aware of any and all plants in the facility and their growing requirements

Experience: One-year greenhouse experience helpful. Formal training in Horticulture, Agriculture or related field is preferred.

Required Skills:

1. Proven ability to work with minimal management supervision.
2. Ability to tolerate extreme temperatures in working facility.
3. Ability to perform physical labor and handle production equipment.
4. Ability to recognize physiological problems in plants.
5. Must be able to obtain a pesticide applicators certification for growth in this position.
6. Good communication and supervisory skills.
7. Working knowledge of greenhouse operations.
8. Ability to execute multiple tasks in a fast paced, variable operation.
9. Ability to work/interact in a multi-cultural workgroup and achieve results.

Pay: \$12-\$15 per hour + Time and a Half on hours worked over 40 per week.
Other benefits will be discussed individually.
